

Welcome to our Summer 2018 Interns -- *continued*

They are available to staff community events throughout Illinois. We would like to target communities with lower voter turnout rates, including young voters, and communities of color. If you know of an opportunity to table at an event near you, please send an email to kgrimm@lwwil.org. Sabrina and Eleanor will be with us until late August.

Rebecca is a graduate student in journalism at the University of Missouri. She will be working on documenting the history of LWWIL, by writing, compiling and publicizing stories from individuals and local Leagues through the 100th Anniversary Campaign, "Celebrating Our Past, Investing in Our Future". She is already hard at work creating a video of an interview with members who traveled to China in 1976 on the LWWIL-sponsored tour.

If you or your League have a story to share, now is the time to let us know. We have the benefit of Rebecca's talents until late August, as well.
